Images, docs, references, Figma links, or folders — Claude will use them as context.

select arrow, minime ova, right padded box, so it breathes

from the edge, with proper `appearance:none` cross-browser reset.

• **Cursors:** `text` on text inputs, `pointer` on the select and on checkbox/toggle labels (with hover state on the box and off-toggle for affordance).

You

Regenerate "VaultWares Docs site": i'm not too fond of the dark text on dark gold, maybe a lighter text color would help (im talking about the button like customer portal)

VaultWares Docs site

Claude

⚡ Editing

index.html

Switched the "Customer portal" button (and any other `.btn-primary`) to paper-bright text (`#FDFCF7`) on the gold for better contrast and a calmer feel.
